carts, floor
- distribution of nonsterile items 73-75
- distribution of sterile items 68-72
- "gyn cart" 89

catheters
- chemical disinfection of 48-49
- nylon 50
- sterilization of 37, 38, 46, 47
- trays 21
- vinyl resin 50

centralization of equipment, forms 5

color schemes 13, 16

conference group 88-89

control system 11

cost analysis 5

distilled water in sterilization 22

distribution 9-10

gloves
- care of 51-54
- circulation of 10
- control of tackiness 52
- laundering of 51-52
- powdering of 52-53
- selection of 51
- sterilization of 25, 51, 53-54
- storage of 51-54
- washer-dryer 15

inventory, perpetual 5, 9

job rating form 93

job specifications 93

linen, circulation of 10

motion
- elimination of unnecessary 19
- principles of economy of 20
- 17 basic motions 19

needles
- disposable 67
- sharpness 67
- sterility 67

organization
- of central service 5
- of sterile supply 12-13

orientation
- of aides to CSR 80
- of CSR workers 76-77
- of nurses to CSR 80-81
- of student nurses 82-85

oxygen 93
- storing in CSR 6

personnel
- comfort of 16
- motivation in training 90
- nonprofessional 93
- participation in planning 16
- rotation of 18
- schedules 6
- training of 10-11, 76-77
- visual aids in training 78-79

planning of department 16

prepackaged dressings 9, 21, 88-89

procedure manuals 17, 18, 78, 79, 81

procedures
- simplification of 6
- standardization of 6

purchasing 93
- file 17, 18

rubber products
- care of 46, 51-54
- deterioration of 46
- packaging of 46
- sterilization of 47, 48, 51, 53-54

soiled items, separation of 11

sterile solutions 12, 14

sterile supply department 12-15

sterility
- duration of 38
- testing of 32, 40

sterilization
- by boiling water 35, 48
- by chemical disinfection 48-49
- by dry heat 36
- by freon 43
- by ethylene oxide 41, 45
- by steam 22, 35, 36
- controls 39
- factors in failure 38
- of containers 38
- of dry goods 25
- of instruments 25
- of rubber gloves 25, 51, 53-54
- time-temperature standards 36

sterilizers
- automatic controls 13
- ethylene oxide 51
- loading 38
- overloading 22, 25
- packaging 37
- pictured 17
- placement of 16, 17
- positioning of supplies 22

storage 16
- how to plan 7
- of autoclave wrappers 31
- of oxygen 6
- of unsterile items 9

student nurses
- orientation in CSR 82-85
- study of cost, supplies 86-87

supervisor, qualifications of 7

supplies, control of 8-11

syringes, hypodermic
- disposable 58-66
- prolonging life of 55-57

time-flow charts 21

time and motion studies 6

training
- motivation in 90
- of personnel 76-77, 93-94
- visual aids in 78-79

visual aids in training 78-79

work flow 6, 16

work tables, sizes of 13, 15

wrappers, autoclave
- bacteriological testing 32
- canvas 37
- cellophane 37
- cost 32
- creped parchment 34
- damaged 29, 31
- Kraft 27, 28, 30, 37
- muslin 29, 32, 33, 37
- Mill crepe 27, 28, 30
- parchment 27, 28, 30, 37
- storage of 31
- 2-way crepe 27, 28, 30, 33
